

MEET THE HEAT SEAL 750ES

Meet the energy smart overwrapper engineered to reduce costs while increasing efficiency. With instant-on heating, up to 80% energy savings, and plug-and-play simplicity, this lightweight system delivers consistent performance and lower total cost of ownership, making it a smart investment for high-volume grocery and food retail operations.

KEY FEATURES & BENEFITS

750ES WRAPPER CRADLE MOUNT

Smart Diagnostics & Simplified Maintenance

Real-time LED indicators, built-in diagnostics, quick-reset breakers, and plug-in components make service fast and easy, no specialized support required. Durable heat zone design ensures long-term, reliable performance.

Consistent, Tamper-Evident Sealing Performance

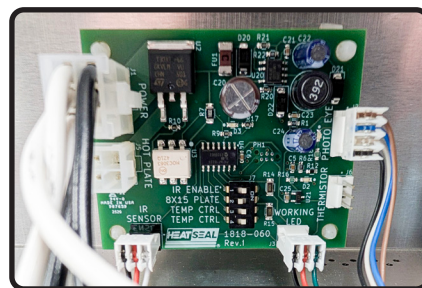

Four precision temperature settings deliver clean, secure seals across a wide range of package types with dependable, repeatable results.

Up to 80% Energy Savings

Advanced microprocessor technology significantly reduces power consumption while maintaining performance, helping lower operating costs and qualify for potential utility rebates.

Durable, Hygienic Sealing System

Redesigned seal plate with a replaceable non-stick cover improves moisture resistance, extends component life, and supports easy daily cleaning for sanitary environments.

Model Specs	Details
Model Number	750ES
Overall Dimensions (L x W x H)	26.75" x 23.25" x 5" (667 × 597 × 127 mm)
Seal Plate	6" x 15" (152 × 381 mm)
Max Film Capacity (W x D)	20" x 8" (508 × 203 mm)
Temperature Setting Options	350°F, 375°F, 400°F, 425°F
Power Requirements	120V, 60Hz, 162W
Machine Weight	28lbs (13kg)
Warranty	Limited 1 Year

APPLICATIONS

- Fresh Meat & Seafood Packaging**
Ideal for high-turn departments wrapping trays of meat, poultry, and seafood with tight, professional seals.
- Produce & Grab-and-Go Items**
Perfect for fresh-cut fruits, vegetables, and ready-to-go meal kits requiring clean, attractive presentation.
- Deli & Prepared Foods**
Wrap sandwiches, hot foods, and prepared meals quickly while maintaining product freshness and shelf appeal.
- Bakery & In-Store Made Goods**
Great for breads, pastries, and packaged baked items needing consistent, retail-ready wrapping.
